Provider: WorldWideITSolutions

Type of Service: IT Help Desk

Dates of Services: 10/01/2025 – 10/01/2026

Description: To assist Marconi Law with IT related issues, up to and including, Help Desk support, phone support and proprietary software installed on systems. Our services will provide and perform all initial setup of the systems on premise and then perform all routine maintenance as well as further support to the systems. Up to and including hardware related, software troubleshooting and full life cycle support.

Reporting: When contacting WWIT, Marconi Law will contact issuing their FULL NAME and ID number associated with any hardware, then a brief description of the problem (Name/ID/Brief description of problem). This will be best practice for our ticketing system and can help speed up our process immensely during the life of the issue.

Phone: 999-555-0133

Email: WWITsupport@fake.com

Online Form/Chat: www.wwITfakenotreal.com

Hours of Operation: 9:00 am – 6:00pm (M-F)

Emergency 24/7

(Emergency response indicated by option 7 via telephone support) This includes only critical or catastrophic failure to server room and server components. Unless loss of critical business or sales is found to be present in which this also dictates emergency services.

Scope of Service: WorldWideIT agrees to the following services provided...

- Laptop and iPhone (macOS, iOS, Windows)
- On premise Network connectivity (WiFi, VPN)
- Emails (Office 365)
- Hardware replacement (Laptop and iPhone)
- Software and hardware troubleshooting
- Server room components
- Regular business hours included with plan
- 24/7 critical response

Exclusions: There is a time and place in which WorldWideITSolutions will not be held liable for provided services or may in fact waive the right of service.

- Unauthorized use or changes to systems
- Failure to provide required information
- Third-party installation of unauthorized access to systems

Monitoring: Through security and performance monitoring. We strive to minimize load times and reduce incidents. By monitoring ticketing systems, using automated tools to measure metrics, logs and tools daily in real time. These metrics will be closely monitored and stored for quarterly review with our clients via our performance report.

SEVERITY LEVEL & RESPONSE TIMES

- Given the complexity of our mission and the robust technical world we live in.
- Our services need to follow a response time index
- For each issue we have a discipline to follow to the utmost degree ranging from routine to critical response times

SEVERITY INDEX

HARDWARE OUTAGE	<u>Immediate response, 24/7 critical.</u> This includes servers, loss of business assets or revenue.
Critical:	<u>Within 2 hours of incident</u> High-impact problems, alike an outage HOWEVER this is more tailored to a stoppage of work. Time sensitive where work goals or deadlines cannot be met.
Important:	<u>Within 4 hours of incident</u> Run of the mill issues that impact a user, or system but do not impede work or schedule or revenue.
Monitor:	<u>Within 1 day</u> If there is no further action to be take, only a follow up and monitor will

Review - This is annually binding contract that will be renegotiated once a year by signing parties (or designated parties).
